

CCPOA REGION 12 Meeting and Training

July 22, 2010

1000-1300 hrs

Check-in 0930 to 1000 hrs

Presentation

ShotSpotter®

Captain Allwyn Brown, Richmond Police Dept.

ShotSpotter Gunshot Location System® (GLS) solutions have become mission-essential tools for reducing gunfire, fighting violent crime, and enhancing security to a growing list of public safety, security, and defense agencies around the world. ShotSpotter GLS solutions improve the timeliness and overall intelligence that agencies receive regarding gunfire, explosions, and other violent threats. Saving lives, catching perpetrators, confiscating weapons are essential to fighting crime and maintaining security and law and order in the communities that they protect and serve. With real-time alerts and ongoing intelligence data from a ShotSpotter GLS, agencies have a tool that gives them the essential and actionable information needed to accomplish these tasks.
